Frameworks: React.js, Next.js, Tailwind Css, Node.js, ASP.Net Core Web api

Developer Tools: GitHub, VS Code, Microsoft Visual Studio, IntelliJ, Eclipse, MS word

DataBase: Oracle, Firebase, MongoDB Compass, SQL Database Sever

EXPERIENCE

HUAWEI TECHNOLOGIES (PVT) LTD

Web Dev Internee

July 2023 – Aug 2023

— Certificate —

- Completed an internship through a third-party HR firm for the client Huawei Technologies (PVT) Ltd.

Fiver

1 Year

Freelancer — React JS — Next JS — ASP .NET Core

- “PlanetQRadio” project on Fiverr using Next.js and MongoDB, featuring a music player allowing users to watch videos uploaded by the admin on the admin page. ([Link](#))
- NZwalks API for a Fiver client using ASP.NET Web API, implementing advanced features such as repository patterns and database context management.

THE SPARK FOUNDATION

Web Dev Internee — Singapore Based Company

May 2023 – Jun 2023

— Certificate —

- Gained practical experience and enhanced my skills in creating dynamic and responsive websites, boosting my confidence in the field.

INTERNS PAKISTAN

Web Dev Internee

July 3, 2023 – July 31, 2023

— Certificate —

- I approached my internship with an initiative-taking attitude, eager to learn new things. During this period, I encountered challenges in HTML, CSS, JavaScript, PHP, and WordPress.

PROJECTS

Breakout Video Game | Java, JavaFx

3rd Semester Project

- Developed a Breakout-inspired arcade game using JavaFX, featuring customizable paddle controls, brick health system, scoring, and life tracking. Enhanced with animations, sounds and power-ups.

PSL Management System | Java, Apache Net Beans, Oracle

4th Semester Project

- Developed a comprehensive PSL (Pakistan Super League) Management System using Oracle and NetBeans, enabling efficient storage and management of match series data.

Restaurant Management System | Html, Css, Javascript, React.js, Firebase

6th Semester Project: [Link](#)

- Designed and implemented Restaurant Management System using React for front-end development and Firebase for server and backend functionalities such as authentication.

LostNest | Html, Css, Javascript, Next.js, Node.js, MongoDB, Vercel

Final Year Project (FYP): [Link](#)

- Developed and deployed LostNest, a web application for UET Taxila students, serving as a Lost and Found Hub. Built with Next.js for frontend and Node.js for backend, utilizing MongoDB as the database.
